Product Overview

Versatile Abrasive Sanding Solutions

These professional-grade abrasive sanding paper sheets are designed for high-performance use across multiple industries, including metalworking, woodworking, and automotive finishing. Featuring both silicon carbide and aluminum oxide options, these sheets deliver superior results for both wet and dry sanding applications. Their durable, non-clogging construction ensures longevity and efficiency, making them an essential tool for achieving high-quality surface preparation and fine finishing.

Technical Specifications

Key Features

Waterproof • Non-clogging • Wet & Dry Use

Abrasive Materials

Silicon Carbide, Aluminum Oxide, Abrasive Cloth

Applications

Compatible Materials

- Metal
- Wood
- Plastic
- Painted Surfaces

Industry Usage

Machine-tools, tool components, accessories, and general abrasive tasks
