

# Abrasive Sanding Paper Sheets

Abrasive paper sheets designed for sanding and finishing various materials. The abrasive grit is bonded to a durable paper backing, providing flexibility and consistent performance.

## Product Overview

### Professional Abrasive Sanding Sheets

These high-quality abrasive sanding sheets are designed to deliver an excellent surface finish on a wide variety of workpieces. Engineered for both durability and flexibility, the sheets are tear-resistant and capable of conforming to various circumferences and forms. They are an ideal solution for professionals requiring consistent performance in both woodworking and metalworking applications.

## Key Features

### Key Features

- Long service life
- Tear-resistant backing
- Highly flexible for various shapes
- Excellent surface finish quality

## Applications

### Primary Applications

Paint Removal, Metalworking, Woodworking, Surface Preparation

## Usage

### Tool Compatibility

Hand Sanding • Power Tools
