

Abrasive Sanding Paper with Hole Pattern

This is a coated abrasive sanding paper designed with a hole pattern. It is suitable for use on wood, metal, and plastic.

Product Overview

Versatile Abrasive Sanding Solution

This comprehensive assortment of coated abrasive sanding papers is engineered for professional-grade sanding, polishing, and finishing tasks. Designed to handle a wide range of materials including ferrous metals, plastics, paints, and fiberglass, these papers provide exceptional versatility for surface preparation. Featuring specialized hole patterns for efficient dust extraction, these abrasives ensure a cleaner workspace and consistent, high-quality finishes across various sanding applications.
