

Abrasive Sanding Sheets

Abrasive sanding sheets are designed for sanding, grinding, and polishing various materials. The sheets are constructed with durable backing material and a uniformly distributed abrasive grit for consistent performance.

Product Overview

Professional Abrasive Sanding Sheets

These high-quality abrasive sheets are engineered for versatile sanding, grinding, and polishing applications across multiple materials. Featuring a durable backing and uniformly distributed grit, they ensure consistent performance and efficient material removal. Whether used with hand sanding blocks or power tools, these sheets deliver a smooth finish for tasks ranging from coarse stock removal to fine surface preparation.

Ideal Applications

Woodworking, Metalworking, Automotive Refinishing, General DIY

Technical Details

Grit Range

- Coarse (for stock removal)
- Fine (for finishing)

Usage Compatibility

Hand Sanding Blocks • Power Tools
