

# Abrasive Sandpaper Roll

This abrasive paper roll is designed for sanding and finishing applications. It is suitable for use on wood, metal, and plastic surfaces.

## ADDITIONAL IMAGES

## Product Overview

### High-Efficiency Abrasive Cloth

This abrasive cloth roll is engineered with high-quality grain coated onto a durable cloth backing using synthetic resin. Utilizing electro-coated technology, the abrasive surface ensures sharper cutting action and significantly increased working efficiency. It is a versatile solution designed for professional sanding and finishing across a wide range of materials.

## Technical Specifications

Backing Material	Cloth
Bonding Agent	Synthetic Resin
Coating Technology	Electro-coated
Available Grits	P30, P120

## Application

### Compatible Materials

- Wood
- Steel
- Ferrous metals
- Non-ferrous metals
- Plastic
- Rubber

### Primary Use Cases

Woodworking • Metalworking • Automotive Repair • Finishing
