

Abrasive Wheel Cut-Off Machine

This cut-off machine is designed for precise and efficient cutting of metal and other materials. It features a high-speed abrasive wheel and a sturdy base for stability.

Overview

High-Performance Abrasive Cutting Solution

This robust cut-off machine is engineered for precise and efficient cutting of metal and various construction materials. Powered by a high-performance copper motor, it delivers consistent speed and reliability for demanding fabrication tasks. The design features a sturdy base for maximum stability and a quick-release vise to ensure secure workpiece handling during operation.

Key Performance

Performance Highlights

1800 W

Input Power

4000 rpm

No Load Speed

355 mm

Blade Diameter

Technical Specifications

Motor Construction

Copper Motor

Operating Voltage

220-240V~50/60Hz

Features & Safety

Operational Features

- Adjustable fence for miter cuts
- Quick-release vise for secure clamping
- High-speed abrasive wheel compatibility

Safety Components

Wheel Guard, Spark Deflector, Sturdy Base

Package Contents

Standard Accessories

Item	Quantity
Carbon Brush	1 pair
Cutting Disc	1 pc
Wrench	1 pc
