

Abrasive Wheel Steel Cut-Off Machine

This steel cut-off machine provides precise and efficient cutting. It features a robust motor, durable abrasive wheel, and adjustable vise for secure workpiece clamping.

Product Overview

High-Performance Steel Cutting

This industrial-grade abrasive wheel steel cut-off machine is engineered for precision and efficiency in demanding work environments. Featuring a robust motor and a durable abrasive cutting wheel, it delivers reliable performance across various metalworking tasks. The design integrates an adjustable vise for secure workpiece clamping and essential safety components, including a wheel guard and spark deflector, ensuring consistent results in industrial and construction applications.

Technical Specifications

Performance Highlights

1 pc

Abrasive Wheel Count

Suitable Materials

Steel Bars, Pipes, Profiles

Features and Safety

Safety Equipment

- Integrated wheel guard
- Spark deflector

Clamping System

Adjustable vise for secure workpiece stabilization
