

ABS PC PAB Robotic Vacuum Cleaner

This cleaning robot is constructed from ABS, PC, and PAB materials. It requires a 5-hour charge time and provides 100-120 minutes of working time.

Product Overview

Efficient Automated Cleaning

This robotic vacuum cleaner is engineered for efficiency, featuring a durable construction from high-quality ABS, PC, and PAB materials. Designed for convenience, it offers a reliable 100-120 minutes of working time on a single charge, making it suitable for maintaining clean floors with minimal intervention. With its compact design and straightforward operation, it serves as an effective solution for automated home or office cleaning.

Technical Specifications

Input Voltage	240 V
Output Voltage	24 DC

Performance Metrics

Battery Capacity

2200 mA

Battery Capacity

Working Time

120 min

Max Working Time

Charge Time	5 hours
-------------	---------

Physical Attributes

Construction Materials	ABS, PC, PAB
Dust Container Capacity	0.37 L
Unit Dimensions	32cm diameter x 8.7cm height

Design

Standard Colors

Black • Orange
