

# ABS Waterproof Solar LED Flood Light with Remote

This ABS plastic solar LED flood light is suitable for both indoor and outdoor environments, eliminating the need for external wiring. It incorporates a smart remote controller, providing adjustable brightness dimming and timing functions for enhanced safety and energy conservation.

## Product Overview

### High-Efficiency Solar Illumination

This waterproof solar LED flood light is engineered for reliable outdoor performance, featuring high-lumen SMD LED chips and a high-efficiency solar panel. Designed with an integrated respirator system, it effectively prevents seal failure and internal fogging caused by environmental thermal fluctuations. With its durable lithium LifePO4 battery and adjustable bracket, this unit offers a long-lasting, flexible, and safe lighting solution for professional outdoor applications.

## Technical Specifications

Battery Type	Lithium LifePO4
LED Technology	SMD LED
Anti-Fog System	Yes

## Features

Key Features	Waterproof, Remote Controlled, Adjustable Bracket, High Conversion Rate, Long Lifespan
--------------	--

## Installation

Mounting Method	Adjustable bracket
