Overview

AC-14 SB High Holding Power Anchor

The AC-14 SB High Holding Power (HHP) anchor is engineered for superior performance across diverse seabed conditions. Constructed from robust casting steel, this self-balanced anchor features optimized fluke geometry to ensure rapid penetration and reliable security for a wide range of vessel types. Its streamlined design minimizes drag while maximizing stability, providing a durable and efficient solution for demanding marine mooring requirements.

Technical Specifications

Nominal Weight Range

60 kg

Minimum Weight

28875 kg

Maximum Weight

Material

Casting Steel

Anchor Type

HHP Balanced Anchor

Certifications

Available Certifications

CCS, ABS, LR, GL, DNV, NK, BV, KR, RINA, RS
