

AC Arc Welding Machine

This AC arc welding machine is designed for a variety of welding applications. It features adjustable current control, durable construction with a yellow and black finish, and portability with wheels and handles.

Product Overview

Professional AC Arc Welding Solution

This AC arc welding machine is engineered for versatility and reliability across a wide range of welding tasks. It features a robust design with a high-visibility yellow and black finish, ensuring durability in demanding work environments. Built for portability, the unit is equipped with integrated wheels and ergonomic handles for easy maneuverability on the job site.

Technical Specifications

Rated Output Current

500 A

Max Output

Welding Method

AC Arc Welding

Features and Design

Key Operational Features

- Adjustable current control
- Portable design with wheels
- Ergonomic carrying handles
- Durable heavy-duty construction

Application Compatibility

Professional Welding, DIY Tasks, Industrial Maintenance

Compliance and Safety

Compliance Badges

dUBA Certified • BZO Standard
