

AC Manifold Gauge with Sight Glass

This AC manifold gauge features a high-quality aluminum alloy valve body. The hand knob is designed for gentle and comfortable operation.

Product Overview

Professional HVAC&R Manifold Gauge

This single-valve AC manifold gauge is engineered for high-pressure applications, making it an essential tool for HVAC&R professionals. It features an integrated sight glass, allowing for real-time visual inspection of refrigerant flow during maintenance. Designed for accuracy and durability, the unit ensures reliable performance in demanding field environments.

Technical Specifications

Gauge Diameter	80 mm
Gauge Class	1.6
Pulse-Free Operation	Yes
Connector Type	3 x 1/4" SAE
Supported Pressure Scales	bar, psi, kg/cm2

Features

Compatible Refrigerants

- R134A

Valve Type	Shut-off ball valve
Visual Inspection	Yes
