

AC Motor Starting Capacitor 500V

This AC motor starting capacitor is a film capacitor with a voltage of 500V. It is designed to withstand a minimum of 100,000 charge and discharge cycles.

Product Overview

High-Performance Starting Capacitor

The CD60 series starting capacitor is engineered with advanced materials and technology to provide reliable performance in demanding environments. Featuring a pressure resistance exceeding 500V and a minimum charge/discharge cycle life of 100,000 times, this component ensures long-term durability. It is an ideal solution for starting various high-quality equipment, including motors, vacuum pumps, fans, and air compressors.

Technical Specifications

Voltage Rating	500 V
Min. Charge/Discharge Cycles	100000
Warranty Period	2 years

Commercial Terms

Payment Terms

- 30% T/T deposit
- 70% T/T balance before shipment

Delivery Lead Time

Order Type	Timeframe (Days)
First Order	30-35
Repeat Order	20-25

Minimum Order Quantity	1000
