

AC Pump Inverter 18.5-160kW

This AC pump inverter is available in a range of power ratings from 18.5kW to 160kW. It is designed for solar photovoltaic applications, renewable energy systems, and industrial automation.

Product Overview

High-Performance AC Pump Inverter

This AC pump inverter is a high-performance solution specifically designed for solar photovoltaic applications, ranging from 18.5kW to 160kW. It is ideal for renewable energy systems, solar water pumping, and industrial automation, providing reliable power conversion for a variety of professional needs. The system features advanced control algorithms and robust protection mechanisms to ensure long-term stability in demanding environments.

Technical Performance

Power Output Range

18.5 kW

Minimum Power

160 kW

Maximum Power

Control & Protection

Advanced Control Algorithms, Robust Protection Mechanisms, User-Friendly Interface

Applications

Primary Applications

- Solar Photovoltaic Systems
- Renewable Energy Resources
- Solar Water Pumping
- Industrial Automation
- Photovoltaic Components

Product Details

Compatibility

Solar PV • AC Pumps • Industrial Grade

Category

Alternation Current (AC) Pump Inverter
