

AC Synchronous Power Generator

This AC synchronous generator is designed for reliable power generation in various applications. It provides stable, efficient performance and is available in power outputs from 3 to 50kW.

Overview

Reliable Power Generation Solution

The ST/STC series AC synchronous generator is engineered for consistent and efficient power output across a wide range of applications. Built with high-quality materials and precise manufacturing standards, this unit ensures durability and long-term operational stability. It is designed to meet diverse energy needs with versatile power output capabilities.

Performance Specifications

Power Output Range

3 kW Minimum Power	50 kW Maximum Power
------------------------------	-------------------------------

Series

ST • STC

Generator Type

AC Synchronous
