

# AC Vacuum Motor for Wet and Dry Applications

This AC motor is designed for wet and dry vacuum applications. Its robust construction ensures durability and efficient performance in demanding cleaning environments.

## Product Overview

### High-Performance Wet & Dry AC Motor

This versatile AC vacuum motor is engineered for both wet and dry cleaning applications, making it an ideal component for industrial and commercial vacuum cleaners. With a robust design and a rated input power of 1200W, it delivers reliable suction and efficient operation in demanding environments. Its compact construction ensures easy integration into various vacuum cleaner models, providing a durable solution for professional cleaning equipment.

## Electrical Specifications

Rated Voltage	120/230 V
Rated Frequency	60/50 Hz
Rated Input Power	1200 W
Rated Current	10.4/5.4 A

## Performance Metrics

### Key Performance Metrics

<b>22 Kpa</b> Max Vacuum Degree	<b>2.8 m<sup>3</sup>/min</b> Max AirFlow	<b>380 W</b> Max Output Power	<b>30000 RPM</b> Speed
Max Suction Efficiency	32 %		

## Operational Standards

### Insulation Class

Class B

Noise Level	98 dB
Average Service Life	500 h
Temperature Rise	85 K
