

AC Vacuum Motor for Wet and Dry Applications

This AC motor is designed for wet and dry vacuum applications. It features robust construction for durability and efficient operation.

Product Overview

High-Performance Vacuum Motor

This AC vacuum motor is engineered for both wet and dry cleaning applications, offering a versatile solution for various vacuum cleaner models. Designed with robust construction, it ensures durability and consistent, long-lasting performance in demanding environments. Its powerful suction capabilities make it an ideal choice for both commercial and residential cleaning tasks, providing efficient operation where reliability is essential.

Technical Specifications

Motor Type	AC Motor
Application Suitability	Wet Vacuuming, Dry Vacuuming, Commercial, Residential

Key Features

Performance Highlights

- Robust construction for enhanced durability
- Engineered for high-efficiency operation
- Powerful suction performance
- Compatible with multiple vacuum cleaner models
