

# Access Control Smart Card

This smart card is designed for access control systems. It provides a secure method for managing entry and tracking personnel.

## Product Overview

### Professional Access Control Smart Card

This high-performance smart card is designed to meet the rigorous demands of secure access control environments. Featuring advanced chip technology, it ensures seamless interaction with modern reader systems while maintaining data integrity. Its durable construction is engineered for long-term reliability in high-traffic settings.

## Technical Specifications

### Operating Frequency

**13.56 MHz**  
Frequency

Card Type	Contactless Smart Card
Certifications	ISO 14443, CE, RoHS

## Physical Properties

Card Material	PVC / PET
Standard Size	85.6mm x 54mm x 0.8mm
