

AC/DC Welding Machine

This welding machine provides both AC and DC power options for versatile use. It is designed for various welding applications and is suitable for both professional and DIY projects.

Overview

Professional AC/DC Welding Solution

The 200AC/DC welding machine is a versatile tool engineered for precision welding across various material types. With its robust AC/DC capabilities, it allows operators to handle complex tasks with ease while maintaining consistent performance. The compact design ensures portability and ease of use, making it an excellent choice for demanding professional environments.

Technical Specifications

Rated Output

200 A

Welding Current

Model Series	200AC/DC
Current Capability	AC, DC

Features

Key Advantages

- Versatile AC/DC dual capability
- Adjustable power settings for varied tasks
- Portable design for on-site flexibility
- Intuitive interface for improved efficiency
