

Acetic Cure Silicone Sealant

This acetic cure silicone sealant delivers a durable and flexible seal. It is resistant to moisture, weathering, and temperature extremes.

Product Overview

High-Performance Sealant Solution

This acetic cure silicone sealant is engineered for demanding professional applications, providing a durable and flexible seal. It offers exceptional resistance to moisture, weathering, and temperature extremes, ensuring long-term reliability. Designed for versatility, it delivers excellent adhesion across various surfaces including glass, metal, ceramics, and plastics.

Technical Properties

Cure Type	Acetic Cure
Key Performance Features	Waterproof, Flexible, Weather Resistant, Durable

Application Suitability

Compatible Surfaces

- Glass
- Metal
- Ceramics
- Plastics

Primary Applications

Construction • Plumbing • Automotive
