Product Overview

Adjustable Angle E27 Lampholder

This E27 lampholder is engineered for versatile lighting applications, featuring an adjustable joint that allows for precise directional control. Constructed from durable, high-quality bakelite material, it is designed to prevent color fading and ensure long-lasting, safe usage. Its robust build includes essential features such as ventilation slots for heat dissipation and secure mounting points, making it a reliable component for professional lighting fixtures.

Technical Specifications

Safety & Design Features

- Adjustable angle joint for directional lighting
- Heat dissipation ventilation slots
- Color-fade resistant material
- Secure screw-hole mounting base

Bulb Base Type	E27
Material	Bakelite, Durable Plastic
Electrical Terminals	3 terminals
