

# Adjustable Beam Angle LED Spot Light

This LED spot light features adjustable beam angles of 24° and 38° and a rotating mount. It is available in 10W, 15W, and 20W power options with color temperatures of 3000K, 4000K, and 6000K.

## Product Overview

### Versatile Precision Lighting

This professional-grade rotating folding spot light is constructed from high-quality pure aluminum for optimal durability and heat dissipation. It features a highly flexible design with 90-degree folding and 360-degree rotation capabilities, allowing for precise directional lighting control. Available in multiple power configurations and beam angles, this luminaire is ideal for accentuating architectural details or providing focused task lighting in commercial environments.
