Product Overview

Professional Grade Adjustable Cable Stripper

This precision cable wire stripper is engineered for the efficient and damage-free removal of insulation across various wire sizes and cable types. Featuring an adjustable blade depth, it easily accommodates different insulation thicknesses, making it an essential tool for electrical, telecommunications, and data cabling applications. The ergonomic handle design ensures a comfortable grip and significantly reduces user fatigue during repetitive tasks.

Technical Capabilities

Material Compatibility

NOT FOR STEEL

Stripping Range Indicators

5, 6, 8, 9, 11

Key Features

Product Highlights

- Adjustable stripping depth for precision control
- Ergonomic handle for comfortable extended use
- Durable construction for industrial performance
- Designed for damage-free insulation removal

Applications

Primary Applications

Electrical, Telecommunications, Data Cabling

Design & Build

Blade Depth	Fully adjustable to accommodate various cable sizes
Handle Design	Ergonomic grip
