Product Overview

Universal In-Car Entertainment Solution

This adjustable car headrest mount is designed to securely hold mobile phones and tablets, transforming your vehicle's rear seat into a personal entertainment center. Featuring a versatile 360-degree rotation mechanism and telescopic arms, it allows passengers to find the perfect viewing angle for long journeys. The mount is built with protective silicone padding to prevent device scratches and minimize vibrations, ensuring a stable and comfortable experience for all users.

Compatibility & Dimensions

Universal design with adjustable width (5cm-20cm) and silicone padding to protect your device.

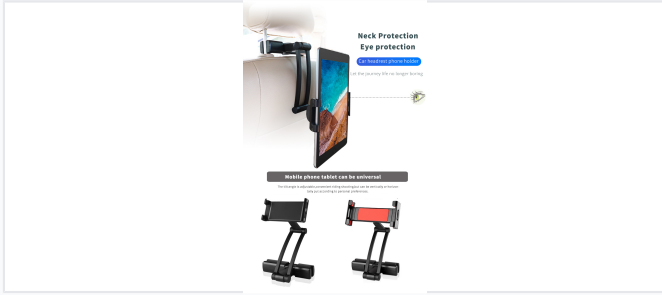

Telescopic arms and 360-degree rotation allow for optimal positioning and easy switching between landscape and portrait modes.

Telescopic Arm Lengths

- 13
- 16.5

Device Compatibility	Mobile Phones, Tablets
Supported Screen Sizes	4-11 inch
