

Adjustable Carbon Steel Wrench

This adjustable wrench is constructed from carbon steel. It is drop forged and semi-polished.

Product Overview

Professional Grade Adjustable Wrench

This adjustable carbon steel wrench is engineered for versatility and durability in demanding fastening applications. Constructed using drop-forged carbon steel, it features a semi-polished, phosphorous finish for enhanced resistance and longevity. Designed for mechanics and professionals, its precision-machined jaw ensures a secure grip on a wide range of fastener sizes.
