

Adjustable Cylindrical Outdoor Garden Light

This outdoor garden light features a cylindrical head that can be adjusted for directional lighting. It is designed with a circular base for easy mounting in gardens, pathways, or to highlight architectural details.

Product Overview

Modern Directional Lighting

This adjustable cylindrical outdoor garden light offers a sleek, minimalist design perfect for enhancing pathways, gardens, or architectural features. Constructed from durable, weather-resistant metal, it provides reliable outdoor performance while maintaining a modern aesthetic. The adjustable head allows for precise directional lighting, giving you full control over your outdoor illumination layout.
