Product Overview

Versatile Outdoor Security Lighting

This outdoor lighting fixture features dual adjustable spotlights and a motion sensor for enhanced security and convenience. The spotlights provide focused illumination, while the motion sensor activates the lights upon detecting movement. Designed for easy installation and adjustable positioning, it is constructed from durable materials to ensure weather resistance and long-lasting performance in various outdoor settings.

Technical Specifications

Power Rating	10 W
Sensor Detection Angle	120 degrees
Sensor Detection Range	10 m
Activation Duration	60 s

Features

Key Features	Motion Sensor, Dual Spotlight, Adjustable Design, Weather Resistant, Outdoor Rated
