

Adjustable Dual Spray Gun Holder Stand

This adjustable spray gun stand is designed for holding two spray guns. Constructed from heavy-duty metal, it provides a stable and secure platform for storing spray guns when not in use.

Product Overview

Professional Dual Spray Gun Storage Solution

This adjustable dual spray gun holder stand is a heavy-duty, versatile solution for organizing painting equipment in professional automotive body shops and industrial facilities. Featuring a stable design with protective, scratch-resistant coatings, it ensures your spray guns remain secure and ready for use. Its adjustable height capability allows for seamless integration with various spray gun sizes and configurations, making it a reliable addition to any workspace.
