

Adjustable Foam Cannon with Quick Connect Nozzles

This high-pressure foam cannon features an adjustable spray nozzle and solution concentration control. It is ideal for car washing, detailing, and other cleaning tasks.

Product Overview

Professional Cleaning Performance

This high-pressure snow foam lance is designed for efficient surface cleaning and detailing applications. It features robust brass construction for long-term durability and includes an adjustable spray nozzle with solution concentration control. The wide-mouth bottle design ensures easy filling, while the quick-connect system allows for rapid nozzle changes to suit various cleaning tasks.

Technical Specifications

Maximum Pressure

1000 PSI
Max Pressure

70 Bar
Max Pressure

Construction Material	Brass
Model Number	20073A

Brass

Model Number

20073A

Features

Product Highlights

- Adjustable spray nozzle pattern
- Variable solution concentration control
- Quick-connect nozzle compatibility
- Wide-mouth bottle for easy filling

Applications

Recommended Use	Car Washing, Vehicle Detailing, Heavy Duty Cleaning
