

# Adjustable Height Electric Radiant Heater

This electric radiant heater delivers efficient and directional warmth. Its adjustable height and safety grill make it suitable for indoor use.

## Overview

### Efficient Heating Solution

This adjustable height electric radiant heater is designed to provide efficient, directional warmth for indoor environments. Featuring a sleek, modern design, it utilizes a circular heating element protected by a safety grill to deliver instant heat. The unit is equipped with a stable base and integrated controls, making it a reliable and user-friendly solution for customized comfort.
