

Adjustable Height Garment Steamer with Attachments

This garment steamer features a telescopic pole with adjustable height and a flexible steam hose. It is equipped with a garment hanger attachment and a base unit that houses a water tank and heating element.

Product Overview

Professional Garment Care

This adjustable height garment steamer is designed to provide efficient wrinkle removal for a variety of fabrics. Featuring a telescopic pole and a flexible steam hose, it offers ergonomic operation for both home and small business environments. The integrated garment hanger and continuous steam output make it a highly convenient alternative to traditional ironing methods.
