

Adjustable Height Industrial Pedestal Fan

This heavy-duty pedestal fan is designed for industrial or commercial use. The fan features adjustable height, a tilting head, and a three-blade propeller for high-volume airflow.

Product Overview

Industrial Airflow Solution

This heavy-duty pedestal fan is engineered for demanding industrial and commercial environments where reliable air circulation is essential. Featuring a robust metal construction and a high-volume three-blade propeller, it delivers consistent performance to maintain comfortable working conditions. The unit is designed for versatility, offering adjustable height settings and a tiltable fan head to direct airflow exactly where it is needed most.

Design & Construction

Construction Material	Robust Metal
Blade Configuration	3-Blade Propeller
Base Design	Stable Circular Base

Functionality

Adjustability	Adjustable Height, Tiltable Head, Locking Mechanism
Power Connection	Standard Electrical Plug

Usage Environment

Application

Industrial Use • Commercial Use
