Product Overview

High-Performance Air Circulation

This high-speed stand fan is engineered for powerful air circulation, making it an ideal cooling solution for both home and office environments. Featuring a 16-inch blade span and robust 120W motor, it delivers an impressive air volume of 122m³/min. With adjustable height, oscillation, and a convenient timer function, this unit offers customizable comfort and reliable performance.

Technical Specifications

Air Volume

122 m³/min

Air Volume

Fan Size	16 inch
Power Consumption	120 W
Motor Speed	1900 rpm
Speed Selection	3

Design & Construction

Blade Material	ABS747
Number of Blades	3
Safety Features	Finger-test compliant, Double ring guard

Features & Functionality

Core Features

- 1-hour timer off function
- Left and right oscillation
- Adjustable height
