

# Adjustable Height Pedestal Fan

This energy-saving standing fan features adjustable height and three-speed wind control. It is equipped with motor overheat protection and a 1-hour automatic timer.

## Product Overview

### Energy-Efficient Cooling Solution

This adjustable height pedestal fan is designed for efficient cooling in various professional and commercial settings. It features a high-quality 18-turn pure copper motor, ensuring durability and consistent performance. With user-friendly mechanical operation, adjustable wind speeds, and built-in safety features like overheat protection, this fan provides a reliable and energy-saving solution for climate control.

## Performance & Features

### Wind Speed Settings

- Strong
- Medium
- Weak

### Automatic Timer

1 hour

### Safety Features

Motor Overheat Protection

## Technical Specifications

### Model Number

FS40-1

### Motor Construction

18-turn Pure Copper Motor

## Design & Build

### Color Scheme

White • Blue

### Operation Mode

Mechanical

### Adjustability

Height adjustable
