

# Adjustable Height Pedestal Fan

This electric fan has a robust metal construction with a copper-tone finish and a circular base for stability. The adjustable stand allows users to customize the height, and the fan head is enclosed in a wire cage for safety.

## Product Overview

### High-Performance Adjustable Stand Fan

This 16-inch adjustable pedestal fan is engineered for versatile cooling in both residential and demanding commercial environments. Featuring a robust 60W motor and three-speed velocity modulation, it provides efficient air circulation for workshops, warehouses, and industrial settings. The unit includes a stable round base and height-adjustable stand, ensuring reliable performance and ease of use in any space.

## Technical Specifications

Power Consumption	60 W
Voltage/Frequency	110V / 60Hz
Fan Size	16 inch
Number of Blades	3
Speed Settings	3-gear velocity modulation
Oscillation	Yes
Height Adjustable	Yes

## Compliance & Logistics

### Container Loading Capacity

Container Type	Quantity
20FCL	900
40GP	1800
40HQ	2000

Certifications	CE, ROHS, GS, EMC, LVD
----------------	------------------------

## Application

### Recommended Use

- Residential/Home
- Industrial Workshops
- Warehouses
- Mining Establishments
