

Adjustable Height Pedestal Fan

This stand fan features a protective mesh grill and three blades for optimal airflow. Its cross base provides stability, and its adjustable height allows for customized comfort.

Product Overview

Adjustable Height Pedestal Fan

This pedestal fan is designed to provide reliable, adjustable airflow for both residential and office environments. Featuring a stable cross-base design and a protective mesh grill, it combines safety with effective cooling performance. The adjustable height mechanism allows users to customize the airflow direction to suit their specific comfort needs.
