

Adjustable Height Pedestal Fan with Multi-Blade Design

This standing fan features a multi-blade design for efficient airflow, enclosed within a safety grill. It has an adjustable height pole with integrated control buttons for speed and oscillation settings.

Product Overview

Adjustable Height Pedestal Fan

This 16-inch pedestal fan features a high-efficiency 5-blade design powered by a reliable AC motor. It offers versatile cooling with 3 speed settings and extensive pan/tilt oscillation capabilities. Designed for user convenience, it includes a Bluetooth remote control and an integrated timer, making it an ideal cooling solution for various indoor environments.
