Overview

High-Performance Pedestal Fan

This adjustable height pedestal fan is engineered for reliable and efficient cooling in home or office environments. Featuring a robust pure copper motor produced in-house, it delivers consistent, powerful airflow with quiet operation. The unit includes versatile speed settings, oscillation, and head tilting functions, making it a flexible solution for various room sizes.

Performance & Technical

Power Consumption	50 W
Voltage Compatibility	110-127V, 220-240V
Speed Settings	3
Timer	2 hours

Design & Build

Blade Material Options

- 3 PP Blades
- 5 AS Blades
- 4 ABS Blades
- 3 Aluminum Blades

Grille Material	Metal, Plastic
Power Cord Length	1.5 m

Certifications

Certifications

CE • RoHS • ErP • REACH • CB • GS
