

Adjustable Height Pedestal Fan with Square Grill

This is an adjustable height pedestal fan designed for indoor use. It features a square grill design and multiple speed settings controlled by buttons and a rotary knob.

Product Overview

High-Performance Air Circulation

This adjustable height pedestal fan features a distinctive square grill design, engineered to provide efficient air circulation and cooling for indoor environments. Equipped with intuitive controls, including buttons and a rotary knob, it offers precise speed adjustments to suit various cooling needs. Its stable base and flexible height adjustment make it a versatile and reliable solution for maintaining comfort in professional or residential spaces.
