

Adjustable Height Pedestal Fan with Wire Cage

This standing fan features an adjustable height pole and a circular fan head. The fan head has multiple blades enclosed within a wire safety cage and is designed for indoor air circulation.

Product Overview

Professional Air Circulation Solution

This adjustable height pedestal fan is engineered for effective indoor air circulation and cooling in professional environments. Featuring a robust wire safety cage and a stable base with integrated controls, it combines durability with ease of operation. The height-adjustable pole allows for versatile positioning to meet specific ventilation needs.

Physical Characteristics

Construction Materials	Durable Plastic, Metal Components, Wire Safety Cage
Height Adjustment	Yes

Operational Features

Application Environment	Indoor Use • Air Circulation • Cooling
Control Interface	Integrated base-mounted buttons
