

Adjustable Impact Sprinkler Head

This impact sprinkler head is designed for efficient irrigation. It features adjustable spray patterns and distance control and connects to standard garden hoses.

Product Overview

Professional Irrigation Solution

This adjustable impact sprinkler head is engineered for precise and efficient irrigation in lawn and garden environments. Its robust plastic construction ensures long-lasting performance in various outdoor conditions. Designed for versatility, the unit allows for adjustable spray patterns and distance control to provide uniform water distribution for optimal plant growth.

Technical Specifications

Spray Adjustability	Yes
Construction Material	Durable Plastic
System Compatibility	Standard Garden Hoses, Irrigation Systems

Performance Features

Key Benefits

- Adjustable spray patterns
- Precise distance control
- Uniform water distribution
- Durable construction
