

Adjustable Jaw Water Pump Pliers

These water pump pliers are designed for gripping and turning irregularly shaped objects. The tool features adjustable jaws, durable construction, and ergonomic handles.

Product Overview

Professional Adjustable Jaw Pliers

These high-quality water pump pliers are engineered for precision gripping and turning of irregularly shaped objects. Featuring highly adjustable jaws, they offer versatile performance across a wide range of professional tasks. The ergonomic handle design ensures user comfort, significantly reducing hand fatigue during extended operation in plumbing, automotive, or general repair settings.
