

Adjustable Length Aluminum Projector Mount

This projector mount is constructed from aluminum alloy. It features an adjustable length ranging from 385mm to 600mm.

Product Overview

Professional Projector Mounting Solution

This adjustable length projector mount is crafted from high-quality aluminum die-casting, ensuring durability and a stable platform for your equipment. Designed specifically for short-throw projectors, it features a versatile cable-hidden system to maintain a clean and professional installation. With flexible tilt, swivel, and rotation capabilities, this mount provides precise alignment for optimal viewing angles in any professional environment.
