

Adjustable Lumbar Support Belt

This ergonomic back support belt provides lumbar support and reduces strain during lifting. It features adjustable straps for a customized fit and durable construction.

Product Overview

Ergonomic Lumbar Support

This adjustable lumbar support belt is engineered to provide gentle, effective support for correcting posture and reducing strain. Crafted from durable polyester with a two-way stretch power knit primary belt, it adapts to various body contours for a comfortable, customized fit. Designed for versatility, it features knit elastic cinch and shoulder straps, making it an ideal solution for professionals requiring extra back support during strenuous activities.

Certifications	CE-approved
