

Adjustable Metal Pet Barrier for Cars

This adjustable pet barrier is designed for use in cars. Constructed from durable metal, it prevents pets from moving into the front of the vehicle.

Overview

Universal Adjustable Pet Safety Barrier

This adjustable metal pet barrier is designed to enhance vehicle safety by keeping pets securely in the rear cargo area. Its expandable design ensures a snug fit across a wide range of vehicle types, from hatchbacks to large SUVs. Constructed with durable metal bars, it provides a robust physical boundary without obstructing the driver's rear view.
