Product Overview

Performance Adjustable Exhaust System

This high-performance adjustable muffler is specifically engineered for LC135 motorcycles, designed to enhance both engine efficiency and auditory experience. The system features a durable, sleek construction with adjustable settings that allow riders to fine-tune exhaust flow and backpressure for improved throttle response. The complete kit includes all necessary mounting hardware, ensuring a straightforward and reliable installation process for professional performance upgrades.

Technical Specifications

Included Components

- Muffler Unit
- Exhaust Pipe
- Throttle Cable
- Mounting Screws
- Spring
- Cable Guide

Compatible Model

LC135

Adjustable Features

Sound Tuning, Performance Tuning, Exhaust Flow Control

Design & Finish

Finish Options

Blue-Anodized • Chrome • Black Coated Pipe
