

Adjustable Nozzle Pneumatic Paint Spray Gun

This pneumatic paint spray gun features an adjustable nozzle and paint flow control. It is designed for automotive, industrial, and woodworking applications and includes a gravity feed cup with volume markings.

Product Overview

Professional Performance

This professional pneumatic paint spray gun is engineered for precision and versatility in automotive, industrial, and woodworking applications. It features an adjustable nozzle and paint flow control, allowing operators to achieve consistent finishes across various surfaces. The integrated gravity feed cup includes clear volume markings, ensuring accurate paint mixing and efficient application for high-quality results.

Technical Specifications

Adjustable Controls

- Adjustable Nozzle
- Paint Flow Control

Cup Features

Volume Markings • Gravity Feed

Primary Applications

Automotive, Industrial, Woodworking

Feed System

Gravity Feed

Tool Category

Pneumatic Tools
