Product Overview

High-Performance Outdoor Illumination

This adjustable outdoor LED spotlight features high-brightness imported chips with advanced automatic packaging technology for superior stability and color rendering. Designed for durability, the radiator is crafted from high-quality aluminum, ensuring efficient heat dissipation for long-lasting performance. The unit operates on a DC drive, providing silent, flicker-free light while offering significant energy savings compared to traditional lighting solutions.

Power Consumption

Model Identifiers

Model	Wattage
TGD-012-6W	6W
TGD-912-9W	9W
TGD-012-12W	12W
TGD-012-16W	16W
TGD-012-18W	18W

Available Wattage Options

6W, 9W, 12W, 16W, 18W

Features & Design

Build Quality

Aluminum Radiator • High-Brightness LED Chips • Adjustable Bracket

Key Operational Benefits

- Silent operation (DC drive)
- Flicker-free performance
- High light efficiency
- Easy replacement (standard size compatibility)
- Adjustable aiming

Applications

Recommended Use Cases

Landscape Lighting, Architectural Illumination, Garden Highlights, Pathway Lighting, Stage Lighting
