

# Adjustable Pattern Spray Gun

This spray gun is engineered for diverse coating tasks, ensuring consistent and uniform application. Its durable design incorporates adjustable spray patterns, facilitating precise material dispensing.

## Product Overview

### Professional Spray Performance

The S701 is a high-performance spray gun engineered for precision and versatility across a wide range of coating applications. Its durable design ensures long-lasting reliability, while the adjustable spray pattern feature allows for optimal material delivery tailored to specific project needs. Designed for professional use, this tool provides consistent, even coverage for paints, lacquers, and various protective coatings.

## Technical Specifications

Feed Mechanism	Gravity-feed
Model Designation	S701

## Key Features

Compatible Materials	Paints, Lacquers, Coatings
Spray Pattern	Yes
