

Adjustable Pattern Spray Nozzle Set

This 4-piece spray nozzle set is designed for versatile watering and cleaning applications. The set includes hose connectors for easy attachment and detachment, a tap connector, and a hose stop connector.

Product Overview

Versatile Watering Solution

This 4-piece spray nozzle set is designed for versatile watering and cleaning applications in professional and residential settings. The set features an adjustable spray gun nozzle capable of transitioning from a fine mist to a powerful stream, offering precise control over water output. Constructed from durable ABS and PP materials, this kit includes all essential connectors for seamless integration with standard 1/2-inch hose systems.
